

Semiconductor Modeling

Roy Leventhal and Lynne Green

Part 1. Introduction

Part 2: Generating Models

Part 3: Selecting Components and Their Models

Part 4: About the IBIS Model

Part 5: Managing Models

Part 6: Model Accuracy and Verification

Part 7: Future Directions in Modeling

Ch 20: The Challenges to IBIS

Ch 21: Feedback to the Model Provider

Improves Model Accuracy

Ch 22: Future Trends in Modeling
