Welcome From JEITA / EC Center EDA Model Specialty Committee

- Thank you for joining us at the Asian IBIS Summit (Japan) again this year.
- Due to many requests in the survey, this year's IBIS Summit will be held as a hybrid face-to-face and online meeting.
- We are very happy to have supported the holding of the Summit by the IBIS Open Forum in Japan for 19 years.
- We would like to thank the IBIS Open Forum officers, speakers, and JEITA / EC Center staff for their great cooperation in preparing for this summit.

Hayato Ogawa

**Keysight Technologies Japan K.K.
Chair, EDA Model Specialty Committee
EC Center / JEITA**

Welcome From JEITA / EC Center EDA Model Specialty Committee

At last year's IBIS summit, We sincerely apologize for the delay in the time schedule and any inconvenience it may have caused.

Taking this as a point of reflection, we have been careful from the planning stage to prevent a similar incident from occurring.

We will continue to strive to improve, so we appreciate your continued support.

Welcome From JEITA / EC Center EDA Model Specialty Committee

A new attempt : “Discussion Room with IBIS Open Forum”

What is “Discussion Room with IBIS Open Forum” ?

This is a session where summit participants can directly communicate their questions and requests regarding IBIS models to members of the IBIS Open Forum and hold discussions.

What is the purpose of this session?

By receiving direct opinion from the IBIS Open Forum, which develops the IBIS standard, we aim to strengthen our interaction with IBIS Open Forum, deepen their understanding of IBIS, and encourage them to make greater use of it.

What’s today’s theme?

The themes were selected from those submitted in advance. Please refer to today’s timetable for details.

Thank you very much to everyone who submitted a theme.

This is our first attempt at this. We look forward to your opinions on how we can make it better.

About EDA Model Specialty Committee

- Since the establishment of the EDA Standard WG in 2004, and then the IBIS Promoting WG, we are today the EDA Model Specialty Committee.
- We work under the JEITA/EC Center for the purpose of improving utilization technologies for the EDA Model, including the IBIS Model, and promoting their distribution.

Current status of the EDA models and our objective

- The EDA models and their specifications will be continually revised with the advent of new technologies and will also become more and more complex.
- Considering this situation, we will work to continue broadly providing information to all users of the EDA Model. We will introduce our website and YouTube channel on the following pages.
- We are putting out a broad invitation to anyone who is interested in working together with us on committee activities of the EDA Model Specialty Committee. If you are interested in joining the committee, please contact us. We hope to hear from you.

Current status of the EDA models and our objective

The main activities of this committee are as follows.

- IBIS Summit held in Japan (**Today!!**)

- Management of our website (Spread information)

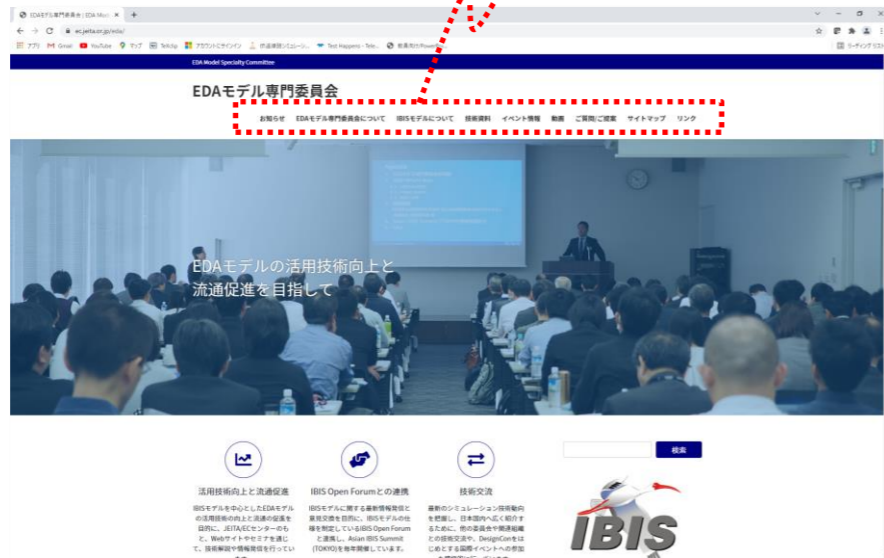

- Planning other events

Management of our website (spread information)

- We have launched our new website in order to provide the latest information in EDA models centered on IBIS. It also contains a message from the chair of the IBIS Open Forum, and technical information.
- We will frequently update our website. Stay tuned!

はじめに(本解説について)

IBISモデルとは?

IBISモデルの特徴

IBISモデルの歴史と分類

IBISモデルのファイル構成

IBISモデルを用いた解析フロー

etc.

Other events: IBIS Seminar (February.20.2024)

- We held the 10th JEITA/IBIS Seminar online on February 20th of this year. More than 140 people participated and lively discussions took place in the Q&A.
- Each session of the IBIS seminar can be viewed on demand through YouTube. These are published on our YouTube channel, which was opened due to many requests.

About Hybrid Asian IBIS Summit – Japan, 2024

- The Summit offers a platform to present information on new IBIS specifications. It is also a platform to discuss and exchange views with the IBIS Open Forum.
- We hope everyone here today will make the most of this opportunity.
